

TECHNICAL DATA SHEET

## FOX System

**FOX is the combination of protein skimmer and ozone technology to achieve clear water in your aquaculture system. FOX improves the management of an aquaculture facility in many areas.**

Due to the intelligent control, ozone is introduced into the system very effectively and the efficiency of the skimmer is drastically increased.

The perfect solution, a FOX system to match your layout. The technical data sheet shows ozone generators of the Multizon series in combination with protein skimmer of the Helgoland series. Protein skimmer of the Fresh Skim Injector series can be also used with the FOX system.

Special dimensions, special constructions such as a protein skimmer reactor in concrete and tailor-made solutions are possible. Feel free to contact us.

FOX System	Ozone generator	Protein skimmer	
	Capacity g/h	Diameter × Height mm	Water flow m <sup>3</sup> /h
FOX 5	5	300 × 2000	3
FOX 20	20	500 × 2000	10
FOX 30	30	600 × 2500	20
FOX 50	50	700 × 2500	35
FOX 100	100	850 × 4000	70
FOX 180	180	1200 × 3500	100
FOX 250	250	1500 × 3500	150
FOX 300	300	1750 × 3000	200
FOX 500	500	2000 × 3500	300
FOX 700	700	2500 × 3500	450
FOX 1000	1000	3000 × 3500	700
FOX 1300	1300	3000 × 4000	850
FOX 1500	1500	3000 × 4500	950
